Installation of the showcase is handled by the customer in cooperation with Swedavia.

Technical details

Description of location:
These analogue signs are located on the roof of the terminal building, overlooking the main entrance of the airport. Due to the size and central placement they offer a dominating and repetitive effect around the area.

Area on the left (seen from the outside, one surface)

6 680 x 3 700mm (wxh).

The four other surfaces

4 750 x 3 700mm (wxh).

Material (All material must be fire-classified):

Mesh. B1 flammability class as per DIN 4102.

Construction:

Keder rail 8.5 mm at the top and bottom.

Packaging and marking: (Rolled onto a hard core).

The material must be clearly marked with the advertiser, campaign period, subject and index number, as well as a picture of the subject. The material must also be clearly marked with the airport contact person.

Production:

Since it is complicated to produce this product, production may only be carried out by a printing firm with enough knowledge about these systems. Contact Swedavia for further information.
